### Written Statement

Generate FS Ltd is an umbrella company employing temporary contractors working across a wide range of sectors and a relatively small head office staff. Our remuneration model for contractors is a combination of National Living Wage/National Minimum Wage (depending on age) and discretionary variable bonuses.

Remuneration for contractors is contingent on the rates we receive for their assignments. These are negotiated by the contractors themselves, who source their assignments direct from recruitment agencies or end-clients. The figures should therefore be read in this context.

This statement confirms that the published information is accurate as at the time of publishing.
